

Company Profile Presentation

Palbit is a reference brand since 1952 as producer of hard metal tools of high quality. Over fifty years of experience enables us to be a complete supplier of solutions for cutting tools.

We have 3 business fields: Cutting Tools, Wear Parts and Rock Tools.

We have a complete program of tools for all your needs and we also produce special tools on demand.

Milling

Facing | Square Shoulder | Disc | Copy

Turning

Turning | Threading |
Grooving & Parting Off

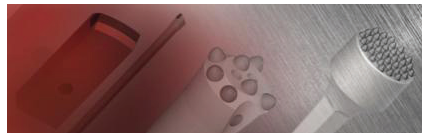

Drilling

Drilling | Reaming | Boring

Wear Parts

All kind of special Tools

Rock Tools

Drill Equipment | Finishing Stone
Tools | Tools for Stone Machines

Inserts

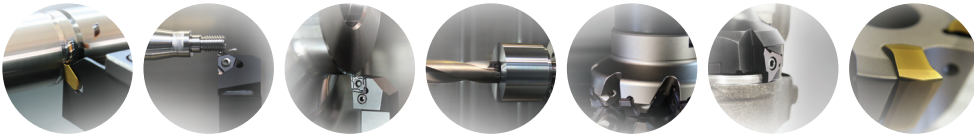

Hardmetal | Diamond | CBN |
Ceramic | Cermet

Quality excellence in all our product range. There is a strict control of the entire production process, in accordance with the requirements of ISO 9001:2008, for which we are certified.

We serve a wide range of industries, from automotive, railway, power generation, oil industry, general machining, etc...

Palbit is a european brand with worldwide exportations (+62 countries).

In the cutting tools business area we design and manufacture high performance tools for operations of milling, turning, drilling, threading, etc. .. for machining of steels, stainless steels, cast iron, aluminum alloys and copper and non-ferrous materials in general, among others.

We also make special tools, according to the customer needs. We do whole process line, since the development of tools for each project, according to the needs of our customers, all production of the tool until the delivery to the customer.

For the wear parts area we offer high quality solutions to help you achieve your goals of profitability: tools and components with low wear in order to prolong the life of the machine and increase the productivity of their manufacturing operations.

We do all kinds of special tools for several areas, such as chemical industry, aeronautics, electronics, bearings and high precision instruments.

The Rock Tools business area has a wide range of solutions for the work on the quarries. These solutions includes drill equipments, finishing stone tools and drill steel equipment.

Global Business Partner

- Wide range of products
 - Enabling a long term partnership ensuring a continuous focus on productivity improvements;
- Knowledge of processes and applications
 - Ensuring the required transfer of know-how;
- Competence in engineering and special tooling
 - Securing your needs and solving your problem issues;
